

DESERTIA & WOOLSKIN ~ multi purpose textured plains

This gorgeous collection of plains has something for everyone when it comes to colour and texture. The two designs, Desertia and Woolskin are unique in their own way. Desertia is a strié inspired design that has taken the normally subtle understated strié to a higher level with a more pronounced and textural stripe effect. The end result is the ultimate dual purpose fabric that will be as beautiful on the window as it will on the couch. Woolskin has a unique texture that is tough and enduring for upholstery as well as soft and comforting for drapes. Combine this with its subtle brushed quality and it is guaranteed to stand out from the rest.
